

# EARTH DAY '18 APRIL 22ND

## Host an award winning Earth Day Event!

In 1970, a then US Senator of Wisconsin, Gaylord Nelson announced the idea for a national day to focus on the environment. Senator Nelson became the founder of Earth Day, a movement that took to the streets on April 22nd, 1970 to demonstrate for a healthy sustainable environment. 20 million Americans participated from coast-to-coast to share in their common values of protecting against the deterioration of the environment.

Today we invite you to be a part of Earth Day. Help us fight for a clean environment as the urgency increases every day due to climate changes.

*Help us reach 100 million pounds of waste out of the landfills by 2020!*

### GET INVOLVED

Partner with Green Lights Recycling. We have a dedicated team that is available to assist you on the process and provide the resources you need for a safe and successful recycling experience.

*When you participate in Earth Day with Green Lights Recycling you will receive a 2018 Excellence In Recycling Award.*
