

GREEN LIGHTS RECYCLING, INC.

LOCAL PRESENCE, GLOBAL IMPACT

Green Lights Recycling has had a positive environmental impact around the world since 1995. Founded in Minnesota, with corporate headquarters and recycling center in Anoka County. The company has achieved considerable growth since its inception.

Through recycling special waste materials, we recycle and recover many products that would otherwise go into a landfill. We also protect bodies of water by recycling mercury containing products. A teaspoon of mercury can pollute a 20 acre lake forever. By choosing to recycle with Green Lights Recycling, you will know that you are impacting our environment in a positive way while keeping the earth clean not only now, but for years to come.

WHY RECYCLE

Recycling is a great way for you to have a positive impact on the world.

- Reduces greenhouse gasses
- Saves resources for future generations
- Creates good jobs for the community
- Reduces your carbon footprint
- Saves natural resources
- Helps prevent pollution
- Protects habitat and wildlife
- Saves energy & landfill space

*It's Earth Day
Every Day at GLR!*

ELECTRONICS • FLUORESCENT LAMPS • L.E.D. LIGHTS
APPLIANCES • MATTRESSES • HARD DRIVES
DOCUMENT DESTRUCTION • BATTERIES • MERCURY DEVICES
TIRES • CARPET • SCRAP METAL • AND MUCH MORE!

WHO CAN RECYCLE

Green Lights Recycling accepts recyclables from anyone.

Our Blaine, Minnesota location does the actual lamp recycling process in-house. We process material in Minnesota and adhere to the highest regulatory standards, we also provide peace-of-mind to our customers who are concerned with otherwise otential long-term liability associated with disposal. We encourage you to visit our Blaine location for yourself and see our process in action.

Residents from any city can drop off recyclable materials in the back of the building. Help will be provided to unload your material. Our staff will weigh or count your items, have you fill out some simple paperwork, and send you up front for payment.

Businesses will be provided with a personal account representative to assist in all recycling needs. We are compliant with all local, state, and federal recycling regulations. We also offer on-site pick-up and delivery services along with end of year reporting.

Government accounts have been recycling with Green Lights Recycling since our inception in 1995. Since 2003, GLR holds the State Contract for Minnesota to recycle mercury, mercury devices, fluorescent, L.E.D. lights, HID lights, ballasts, and batteries. We service Schools, Colleges, Cities, Counties, and Governmental Agencies.
