

# GREEN LIGHTS RECYCLING

*now recycles all types of SOLAR PANELS for businesses & residents*

A healthy economy requires constant production and consumption. With a scarcity of natural resources, and to achieve a sustainable future, we must strive for a circular economy in which products that have reached the end of their life are no longer seen as a waste, but as a valuable resource.

*Anatomy of a Solar Panel*

Green Lights Recycling is your one-stop-shop for special waste recycling. Our knowledgeable staff has the experience and expertise to make your recycling efforts simple.

*Call us today for personal service and let our helpful sales associates guide you through the process.*

10040 Davenport Street NE Blaine, MN 55449
